Well, we survived Idalia! We are so blessed to live in Florida, and going through things like this is just one of the things we live with. Thanks to Andrea, Barb, Larry and Chris & Sue for taking up all the pool furniture!

We had more repairs on the pool, all the equipment is old, just as our own homes, old things need fixing or replacing and it's costly!

Adams Tree service did an outstanding job, they cleaned up as they went. All done in two days, with cutting, trimming and stump grinding.

Design Landscaping have been doing a good job, and we have had no complaints so far..... yayy, and saving money monthly to boot!

Termite inspections will be next on the agenda, and we are looking for another company as Hughes feels they lost money on the contract last year. We had a quote of \$5,000 but they took back the bid, too much work. Any suggestions will be appreciated as we try other companies.

We have a desperate need for more board members, please consider volunteering your time and services. We **must** have a minimum of 3 people to constitute a board per state regs. This is **your** community, so contact Andrew @ Ameritech to put your name in. We have a board meeting coming up 9/20 Wednesday at 6pm, and have a guest speaker coming at 6:30pm from our local Police Department so please attend!
